

Lost wax carving

Van Ranst & Zonen

*prices are excl. 21% VAT.

Sprues

To optimise the quality of our castings, we **no longer cast pieces that arrive with their own sprues**. From now on, we will apply the necessary sprues ourselves. You may indicate with a marker where you would prefer these sprues to be placed. The workmanship price includes 1 sprue. If additional sprues are required, a surcharge of **€1.40 per extra sprue** will be applied."

Delivery times

Wax models delivered before Tuesday 12:00 will be ready Thursday evening. If you bring in more than 30 pieces, we will cast your order in partial batches, depending on our weekly capacity.

Pieces that need moulding and are delivered before Thursday 16:00 can be collected the following Thursday from 16:00 onwards.

Craftmanship

Casting remains an artisanal process. If a model is supplied in wax, Van Ranst cannot be held responsible for its loss should the casting process fail.

Casting moulds

Van Ranst moulds: wax injection (depending on the size of the jewellery):	from 4,80
External moulds: wax injection (depending on the size of the jewellery):	from 6,50
